

# ILLAWONG RESERVE PLAYGROUND

Penrith City Council

Equipment descriptions on following page

Penrith City Council | Illawong Reserve, Design 2 ZMC 2304-27B

Design is orientated and positioned to utilise the site's unique features, including views, existing vegetation, topography and passive surveillance

Multiple play opportunities (both challenging and comfortable) to engage people of different ages and abilities

Activity zones arranged with subtle separation, without boundaries or significant distance between them

Main equipment piece is comfortably trafficable by all, including those with limited mobility

Softfall surfaces and planting provide a sensory play opportunity through materiality or textural features

All equipment, fall zones and surfacing complies with relevant Australian standards

Penrith City Council | Illawong Reserve, Design 2 ZMC 2304-27B

Multiplay unit with climbing and sliding opportunities caters to both the younger and older children – encouraging users to choose an activity that best suits their ability

Penrith City Council | Illawong Reserve, Design 2 ZMC 2304-27B

Swing has been separately located to the back of the site to avoid traffic flow through the forced movement zone

Penrith City Council | Illawong Reserve, Design 2 ZMC 2304-27B

Penrith City Council | Illawong Reserve, Design 2 ZMC 2304-27B

Rubber connects the rocker, swing and multiplay unit while also used as subtle barrier to separate the forced movement zones

Penrith City Council | Illawong Reserve, Design 2 ZMC 2304-27B

Penrith City Council | Illawong Reserve, Design 2 ZMC 2304-27B
